

**Metal Malarkey Engineering, Shropshire, UK,
www.malarkeyengineering.co.uk**

Metal Malarkey Engineering is a specialist motorcycle design and development company offering a range of motorcycle frames and bespoke component parts.

Close-up view of the frame strengthening.

The object was to create a factory-looking, three-wheeled R80. Components were upgraded where necessary.

SPECIFICATION

- Converted R80 frame, strengthened by stainless brace across cradle
- Ford Escort axle
- Suspended seat, Hagon shock
- Malarkey alloy slab yolks
- Kawasaki forks, twin four-pot callipers
- Stainless braided hoses, fasteners and Keihin silencers
